The Truth can be known with Theanthropic Ethics, which is one of the few scientific ethical categories. Dr. Brian Keen has researched numerous ethical categories, and has found only Theanthropic Ethics understands that there is one universally applicable Truth. The Truth has practical application in every enterprise, business, or profession. Any business, enterprise, or profession operating in an ethical manner will have the necessary "POWER" to succeed. Accounting is featured since accountants as professionals must utilize scientific methodologies. Businesses and enterprises require "POWER Living People" to employ, since ethical employees are an asset in Truth. Many entrepreneurs are "POWER Living People." Dr. Keen proves through conclusions from objective data that the Truth has relevance for today. Ethical dilemmas can be resolved through adherence to the Truth. For example, would you allow a cashier to accept two \$5 bills for a product costing \$45, and give a \$10 bill for change? Would adherence to a philosophy that $5 + 5 = 55$ be sufficient? Dr. Keen knows the Truth that $5 + 5 = 10$ when the same types are added. Living the Truth is ethical when utilizing this scientifically-verifiable ethical category, which is confirmed in Theanthropic Ethics.

Over the last 25 years a disparate body of management techniques has been developed which seeks to ensure that a business process creates the highest possible value for the owners of, and other stakeholders in, that process. The relevant techniques relate to performance evaluation, decision-making, strategy and organisation. The practical application of these techniques is known as 'value-based management'. This text seeks to explore value-based management through a study of writings in newspapers, professional journals, academic publications, and technical manuals. Most writings included are extracts from longer publications or abridged versions of original articles. * Provides an overview of value-based management in a concise and accessible format * Incorporates case studies and journal articles alongside ground breaking research papers * Perfect for the practitioner pressed for time but needing to keep up to date

Accounting practice, whether in business or government, is more dynamic, more complex, and addresses a wider array of issues than it did as little as five years ago. Significant and rapid social, political, technological and economic changes are taking place in the world economy and it is increasingly recognised that accountants in all countries play a key role in the process of economic development. Accounting education is undergoing a thorough review on a worldwide basis and major developments are taking place to produce quality accounting education that can keep pace with dramatic world change. This book provides an up-to-date view of the state of accounting education throughout the world and focusses on the global challenges facing accounting education as we approach the millenium.

Transform your high school accounting course with CENTURY 21 ACCOUNTING GENERAL JOURNAL 10E, the leader in high school accounting education for more than 100 years.
