The author of Falklands Hero follows the Third Parachute Battalion through a ferocious battle to secure a key strategic position during the Falklands War. This, the first in a series on Special Operations, tells the story of Three Para and the often-neglected struggle for Mount Longdon. It was a battle that tested the discipline, comradeship, and professionalism of the Paras to the limit; it was a battle that witnessed another posthumous Victoria Cross; it turned out to be the bloodiest battle of the entire Falklands Campaign. "Like many a fascist state before them the Argentine Junta thought they could steal territory that belonged to someone else who they considered weak. It came as a shock when Britain rapidly assembled a Task Force and sent it 8,000 miles to eject the Argentine bandits. . . . It was a victory of British military skill and courage in spite of the neglect by politicians. . . . The author has told the story with skill and insight." —Firetrench.com

*** 'If you only read one book about the Falklands make sure it's this one.' - Soldier magazine 'An extraordinarily detailed account of the bloodiest battle of the Falklands war.' - Major General Jonathan Shaw CB CBE When 3 Para began their assault under cover of darkness on Mount Longdon in June 1982, nobody knew what to expect. The three platoons of B Company each approached the mountain silently, treading carefully through a series of defensive minefields. But following an explosion, fighting quickly escalated with shocking speed and severity, resulting in some of the bloodiest close hand fighting, terrible injuries, and shocking loss of life experienced by British troops since the Korean war. Recreating 3 Para's bloody Falklands battle from multiple angles, James O'Connell - who fought there and was seriously injured himself - has written a gut-wrenching 360 degree classic. Frustrated by highly inaccurate books about the battle, O'Connell decided to set the record straight. What he did next was extraordinary - he revisited the Falkland's five times with comrades and Argentine soldiers and literally walked through the battle with them, step-by-step, creating an unprecedented masterpiece of immersive military publishing. Combined with rare access to the Battalion's records and radio logs, the resulting book is the last word on Mount Longdon, and might be the most harrowingly realistic description of modern warfare you will ever read.

The complete Falklands experience of a young 3 Para machinegun crew, based on accounts given during veterans' organised battlefield tours of Mount Longdon and other sites. Sergeant Rob Lofthouse has served in Iraq, and formed part of the Falklands defence force in the 1990's. The prologue details a gunner's very first experience of combat. A real soldier's voice, combining dry gallows-style humour with a very real and brutal account of the conflict. Review from Warrant Officer Dan Mills, author of "Sniper One"; In the past, I have had the honour of fighting alongside Rob Lofthouse. Not only has he managed to eerily portray accurately the events of that cold, long hard night on Mount Longdon in June 1982, but he has also effectively transported the reader there, as though they landed at San Carlos alongside 3 Para. The description and portrayal is uncanny, and having spoken to many soldiers who were on that artillery-swept summit and the hard fought over approaches to it, Rob is spot on. The build-up and tension leading up to the action is intense, and once the battle was over, I wanted to read more, the realism is remarkable. The Falklands War turned out like so many once casualties bite the ranks, it is the remarkable Tommy and Non-Commissioned Officers who step up to the plate, grasp control then inspire, and reorganise and lead a small band of men into battle. Throughout that war, these small groups were embroiled in their own battles, and full credit to those men because they won the day. Extract from foreword by Major Justin Featherstone MC; The Falklands Conflict was remarkable in many ways. It was the last British conflict over an issue of national sovereignty; the last significant British maritime military deployment; the last time that British troops marched for the duration of a campaign; the last time a substantial British task force met a regular enemy without any meaningful air manoeuvrability. This was primarily a dismounted infantry campaign, its battles fought in close combat, in a manner that has changed little since World War II. One thing that has not altered lies at the very heart of British military capability, the British private soldier. As we accompany Archie and B Company of 3rd Battalion, The Parachute Regiment across the desolate and arduous terrain of the Falklands, Rob's treatment of the workings of such a force is both affecting and unerringly accurate. From preparation, to the orders given over a topological model constructed from earth, each episode drew me back to when I was giving orders for battle. When Archie enters the maelstrom of close combat, the ordered chaos, sensory

overload and sense of unyielding commitment are both overwhelming and compelling. The author conveys the horror and sense of movement without flinching, but it is the extraordinary actions of each individual which have the greatest impact. As the battle progresses, and the cost mounts, the strength of initiative given to the ranks is apparent. It is this thoroughly British concept of Mission Command that allows 3 Para the flexibility and momentum to push home the attack, despite devastating losses. As each of the individuals constantly consider what they should do next in the absence of regular orders, having lost many of their commanders, they act with authority and a savage pride that ultimately leads to the defeat of the Argentine position on that remote 600-foot hill, despite the enemy's strength and the need to attack up the slope. Rob has created a compassionate, emotive and compelling story, clearly born from the author's experiences as a combat infantryman... his authentic voice has remained with me, that of 5 Platoon, B Company, 3 Para, and its desperate advance up the rock-strewn slopes of Mount Longdon. "It was that realistic." MAJOR MANNY MANFRED, "A" COMPANY, MOUNT LONGDON 1982 "A thought-provoking account of our last low-tech conventional conflict." SOLDIER MAGAZINE

On Friday, April 9, 1982, a British task force set sail for the Falkland Islands. Three months later, after a short but brutal campaign, it had successfully completed its mission of ejecting the Argentinean occupying forces from the islands. With 3 Para to the Falklands is the full story of that dramatic struggle from the point of view of a sergeant in the Third Battalion, Parachute Regiment (3 Para). This elite battle group played a significant part in the campaign, marching from Port San Carlos to Port Stanley and fighting in one of its most crucial, yet often-neglected battles the night assault on Mount Longdon. Graham Colbeck was there every step of the way and his vivid account reveals the stark realities of fighting in this stubbornly contested conflict. His narrative brings to the fore the chilling nature of the combat, the challenge of the harsh conditions met on the Falklands, the training and techniques of an elite force, and the comradeship of troops in battle.

Krigserindringer. Underkorporal Vincent Bramley, der var tjenstgørende ved "3 Para" en britisk faldskærmsjægerenhed, skriver, hvad han så og følte under Falklandskrigen 1982, og de strabadser både de britiske og argentinske soldater blev udsat for under krigen.

The bloodiest battle fought by the British Army since the Korean War occurred in the Falkland Islands in June 1982. Allegations have emerged of incompetence, cowardice and murder by British soldiers. This account of what happened on Longdon is based on eyewitness interviews and primary sources.

At the height of the bitter battle for Mount Longdon during the Falklands War, 3rd Battalion, Parachute Regiment's assault has stalled in the face of determined resistance. With his platoon held up by an Argentine machine gun, it falls to Sergeant Ian McKay to act. The machine gun has to be silenced to break the deadlock. Gathering a small group together, Ian McKay leads them in a headlong dash into the teeth of a withering fire. One by one they fall until only McKay is left, charging on alone towards the Argentine gun and a place in history. His was the final act of a man who lived, breathed and was shaped by the Parachute Regiment: an act which earned him a posthumous Victoria Cross. This is the story of Ian McKay: the last British hero of the Twentieth Century.

In the 3rd Battalion of the Parachute regiment (3 Para) the green-eyed boys are the soldiers who have submerged themselves entirely into the Regiment's cult of machismo. For them, after years of peace enlivened only by the cruel frustration of Northern Ireland, the Falklands War was an opportunity to pit themselves against a real enemy. Many of them consider the assault through the Argentinian position in Mount Longdon to have been the highest point in their lives - and they took every opportunity to enjoy it to the full. Ironically, in fulfilling their violent fantasies the green-eyed boys brought both glory and dishonour on the battalion.

Mark Eyles-Thomas and his three friends were just 17 when they were sent to war 8,000 miles away from home to win back the desolate Falkland Islands from Argentine invaders. His three friends paid the ultimate price during the battle for Mount Longdon. Only now, 25 years later, has he been able to relive the horror he witnessed.
