This volume explores the elusive subject of English prosody—the stress, rhythm and intonation of the language—, and its relevance for English language teaching. Its sharp focus will be especially welcomed by teachers of English to non-native speakers, but also by scholars and researchers interested in Applied Linguistics. The book examines key issues in the development of prosody and delves into the role of intonation in the

construction of meaning. The contributions tackle difficult areas of intonation for language learners, providing a theoretical analysis of each stumbling block as well as a practical explanation for teachers and teacher trainers. The numerous issues dealt with in the book include stress and rhythm; tone units and information structure; intonation and pragmatic meaning; tonicity and markedness, etc... The authors have deployed speech analysis software to illustrate their examples as well as to encourage readers to carry out their own

USA TODAY BESTSELLING AUTHOR  
Serena has learned to live with her past, locking her secrets deep inside her. But when her boyfriend of six years abruptly leaves her, she's catapulted back into pain, nursing a broken heart. When indulging in mountains of chocolate doesn't work, Serena decides the best way to deal with her shattered heart is to indulge in something else. A rebound . . . The night she swaps her usual Sprite for tequila, she meets James.

The encounter is breathtaking. Electrifying. And best not repeated. James is a successful entrepreneur in Silicon Valley. A man who has amassed a fortune by taking risks. A man who has shunned commitment completely, and still does. He's the exact opposite of Serena. But sometimes opposites attract. Sometimes they give in to burning passion. Sometimes opposites are perfect for each other. James is everything her damaged soul could want. His kisses are intoxicating, his touch out of this world. He makes her forget. He grants her peace from her pain. But as they grow closer, Serena

discovers she isn't the only one with a past. James carries the scars of a past much darker than hers. One that has left him damaged, hurt, and wary of love. A past that gives him the power to shatter her. Now James and Serena must find a way to mend one another. Or risk losing each other forever. \*This read is recommended for 18+ due to romance and sex and mature themes. The book was re-published with content changes on June 18th 2015.\*

Move it fast. If you are driving a 1990 model car, approximately six years were spent developing it. Today, most companies do that job in two years. Move it faster. At Hewlett Packard, the majority revenues come from products that did not exist a year ago. Move it now. In Tokyo, you can order a customized Toyota on Monday and be driving it on Friday.
