How do people whose entire way of life has been destroyed and who witnessed horrible abuses against loved ones construct a new future? How do people who have survived the ravages of war and displacement rebuild their lives in a new country when their world has totally changed? In Making Refuge Catherine Besteman follows the trajectory of Somali Bantus from their homes in Somalia before the onset in 1991 of Somalia's civil war, to their displacement to Kenyan refugee camps, to their relocation in cities across the United States, to their settlement in the struggling former mill town of Lewiston, Maine. Tracking their experiences as "secondary migrants" who grapple with the struggles of xenophobia, neoliberalism, and grief, Besteman asks what humanitarianism feels like to those who are its objects and what happens when refugees move in next door. As Lewiston's refugees and locals negotiate coresidence and find that assimilation goes both ways, their story demonstrates the efforts of diverse people to find ways to live together and create community. Besteman's account illuminates the contemporary debates about economic and moral responsibility, security, and community that immigration provokes.

For those like author Halima Abdirazak, war hasn't just existed on a television screen during the nightly world news. For Halima, war was on her front lawn. In 1991, seven-year-old Halima walked out of school one day into a civil war that had erupted on the streets of her home of Mogadishu, Somalia. From that day forward, Halima's life was constantly changing, and she was finding out how strong she really was. Her father, who worked for the United Nations, had to flee the country immediately without his family. Soon Halima and her family followed when Mogadishu was covered in blood. As they worked their way away from the war torn city, the little girl watched as men and women were gunned down in the streets she once played in. Halima's family made it to a refugee camp in Kenya, after surviving their ship sinking off the Kenyan coast, but hard times were far from over. In her memoir, My Father's Legacy: A Somali Woman's Journey from Somalia to US, author Halima Abdirazak tells her extraordinary life story in which she survives war, refugee camps, her father's death, and her own cancer diagnosis. Halima's autobiography is the story of a strong-willed, Muslim woman who was raised to believe that she had no limits in life, and she grew up to prove that.

In January 1991, when civil war came to Mogadishu, the capital of Somalia, two-thirds of the city's population fled. Among them was eight-year-old Asad Abdullahi. His mother murdered by a militia, his father somewhere in hiding, he was swept alone into the great wartime migration that scattered the Somali people throughout sub-Saharan Africa and the world. This extraordinary book tells Asad's story. Serially betrayed by the people who promised to care for him, Asad lived his childhood at a skeptical remove from the adult world, his relation to others wary and tactical. He lived in a bewildering number of places, from the cosmopolitan streets of inner-city Nairobi to the desert towns deep in the Ethiopian hinterland. By the time he reached the cusp of adulthood, Asad had honed an array of wily talents. At the age of seventeen, in the Ethiopian capital, Addis Ababa, he made good as a street hustler, brokering relationships between hard-nosed businessmen and bewildered Somali refugees. He also courted the famously beautiful Foosiya, and, to the astonishment of his peers, seduced and married her. Buoyed by success in work and in love, Asad put twelve hundred dollars in his pocket and made his way down the length of the African continent to Johannesburg, South Africa, whose streets he believed to be lined with gold. And so began a shocking adventure in a country richer and more violent than he could possibly have imagined. A Man of Good Hope is the story of a person shorn of the things we have come to believe make us human—personal possessions, parents, siblings. And yet Asad's is an intensely human life, one suffused with dreams and desires and a need to leave something permanent on this earth.

America Here I Come: A Somali Refugee's Quest for Hope brings you the moving story of Hamse Warfa. It is a heartrending narration of his escape from a civil war that ultimately claimed the lives of more than two million people in Somalia to his becoming a leading light here in the U.S. The author takes us back to his difficult life as a refugee in the camps in Kenya and the trials of adapting to life as a New American. The book is candid about the kind of challenges that new immigrants face seeking education and integration in the U.S. The cultural shocks that Hamse faces in the new land of opportunity are as funny as they are thought-provoking. Hamse is determined to make an honest and meaningful existence, and he openly shares what really goes on in the back of an immigrant's mind throughout the process.. Hamse's personal story is helpful for Americans to understand their neighbors (New Americans) and the intricate web of global affairs that often lead people to seek refuge in distant lands. Hamse talks of his struggle with education, partly for the feeling of alienation that he suffers in a foreign land, and second due to his poor language skills. But he confronts the language barrier and eventually gets the breakthrough he has always yearned for. He earns a bachelor's degree in Political Science from San Diego State University, and later Masters of Science in Organizational Management & Leadership from Springfield College. Currently, Hamse is pursuing his doctoral degree in Public Administration at Hamline University. Certainly, Hamse is no longer the naive boy of mixed identity he was close to 20 years ago when he first landed in the United States. This book is not an appeal for pity. Rather, it is a living proof that with persistence you can conquer the tallest barriers standing between you and your success. Today, Hamse serves as an advisor to philanthropy working with foundations. He also is an expert in peacebuilding serving as a board and executive committee member for Alliance for Peacebuilding, a global membership association of more than eighty peacebuilding organizations, 1,000 professionals, and a network of more than 15,000 people developing processes for change in the most complex, chaotic conflict environments around the world. Hamse is also a motivational speaker on conquering adversity, building resilience, and the importance of education and academic success for low-income children. America Here I Come: A Somali Refugee's Quest For Hope is both a memoir as well as a view on leadership for people in positions of authority both in private and public sectors. It is a must-read for students of political science, leadership, history, as well as immigration. For New Americans facing the challenge of integration and needing to redefine their new identity, this is the book you need to understand your situation better and chart your way forward towards success.
