Our LiquiBand® technologies are developed and marketed for use in the emergency room, operating theatres and extended care environments. Through our expertise in cyanoacrylate technology we have developed a range of medical grade adhesive devices that meet specific clinical needs and deliver substantial benefits to patients.

About LiquiBand - Surgical Wound Closure - About Us  
LiquiBand® Standard contains sterile butyl cyanoacrylate, designed for closure of clean fresh wounds where the edges are easily apposed and not under tension. Has a precise application tip that provides controlled application. Seals the wound and removes the need for dressings.
