Introduction to African Languages | The African Language ...

This book is the first general introduction to African languages and linguistics to be published in English. It covers the four major language groupings (Niger-Congo, Nilo-Saharan, Afroasiatic and Khoisan), the core areas of modern theoretical linguistics (phonology, morphology, syntax), typology, sociolinguistics, comparative linguistics, and language, history and society.

African Languages: An Introduction: Heine, Bernd ...

Abstract. This book introduces beginning students and non-specialists to the diversity and richness of African languages. In addition to providing a solid background to the study of African languages, the book presents linguistic phenomena not found in European languages. A goal of this book is to stimulate interest in African languages and address the question: What makes African languages so fascinating?
