The World Gospel Kingdom Tracts (WGKT) 2017 Selected Ministry Gospel Quote Quarterly Series, Set 2, Vol. 3 are categorically intended to unlock the mystery of your human life. WGKT is explicitly designed to make known the unsearchable riches of this Wonderful Christ as the mystery of the gospel of the Kingdom of God. The Ministry Gospel Quote Series and Tract distribution is God's sovereign way to propagate the gospel of Christ to make known the mystery of His will and His divine purpose. WGKT provides 2017 Selected Ministry Gospel Quotes in Calendar format for your daily edification, truth, life and light. These Ministry Gospel Quote Calendars is a quarterly series. In this quarterly series, we continue from July to September respectively. In this volume, we continue God's Dispensing as Revealed in the Experiences of the Children of Israel in Exodus. The unleavened bread that the children of Israel partook of typifies the resurrected Christ! Christ was not only crucified, but also resurrected! He was crucified to be our Lamb, and He was resurrected to be the unleavened bread. We have to enjoy the resurrected Christ! Since the children of Israel had eaten the Lamb, why did they still need to eat unleavened bread? Let me illustrate in this way. After you were saved you partook of the crucified Christ, and He became your inner energy to give you the strength and boldness to walk out of the world. But you were not so strong to overcome sin. You were very vigorous to walk out of this world, but you could not overcome your temper or your besetting sin. You had the strength to get out of the world, but you did not have the power to overcome the sinful things. There are many dear Christians who left the world, yet who were still beset by sin. They couldn't overcome their temper. They couldn't overcome their lust. They were beset by certain sins. They needed the unleavened bread. This is bread that has nothing to do with sin. It is the bread that overcomes sin! This is the resurrected Christ! When the resurrected Christ becomes your food in your experience, this resurrection life overcomes sin! He that is born of God does not sin (1 John 3:9). What is it to be born of God? That is to have the resurrection life. Only the resurrected Christ is the life that overcomes sin. When you live on this unleavened bread, you will live a life without leaven. Everyone who has been begotten of God does not practice sin, because His seed abides in him; and he cannot sin, because he has been begotten of God. But far be it from me to boast except in the Cross of our Lord Jesus

Christ, through whom the world has been crucified to me and I to the world. Eating the Lamb enables you to walk out of Egypt, but it is unleavened bread that enables you to live a life without leaven. To walk out of the world you need the crucified Christ. This is why Paul could say that to him the world was crucified, and to the world he was crucified (Galatians 6:14). This is the experience of the crucified Christ! But for us to live in newness of life without any leaven, we need the resurrected Christ! We need the unleavened bread! Has the world been crucified to you? Have you been crucified to the world? Are you crucified to the world and freed from sin?

This book focuses on software architecture and the value of architecture in the development of long-lived, mission-critical, trustworthy software-systems. The author introduces and demonstrates the powerful strategy of "Managed Evolution," along with the engineering best practice known as "Principle-based Architecting." The book examines in detail architecture principles for e.g., Business Value, Changeability, Resilience, and Dependability. The author argues that the software development community has a strong responsibility to produce and operate useful, dependable, and trustworthy software. Software should at the same time provide business value and guarantee many quality-of-service properties, including security, safety, performance, and integrity. As Dr. Furrer states, "Producing dependable software is a balancing act between investing in the implementation of business functionality and investing in the quality-of-service properties of the software-systems." The book presents extensive coverage of such concepts as: Principle-Based Architecting Managed Evolution Strategy The Future Principles for Business Value Legacy Software Modernization/Migration Architecture Principles for Changeability Architecture Principles for Resilience Architecture Principles for Dependability The text is supplemented with numerous figures, tables, examples and illustrative quotations. Future-Proof Software-Systems provides a set of good engineering practices, devised for integration into most software development processes dedicated to the creation of software-systems that incorporate Managed Evolution.

Students who are beginning studies in technology need a strong foundation in the basics before moving on to more advanced technology courses and certification programs. The Microsoft Technology Associate (MTA) is a new and innovative certification track designed to provide a pathway for future success in technology courses and careers. The MTA program curriculum helps instructors teach and validate fundamental technology concepts and provides students with a foundation for their careers as well as the confidence they need to succeed in advanced studies. Through the use of MOAC MTA titles you can help ensure your students future success in and out of the classroom. Vital fundamentals of security are included such as understanding security layers, authentication, authorization, and
