Five years after they defeated Darth Vader and the Emperor, Princess Leia and Han Solo are married and expecting children, and Luke is a Jedi knight, and all are unaware that the last of the Emperor's warlords plan to reclaim the empire. Reprint.

The epic story that began with Heir to the Empire reaches its dramatic conclusion in this essential Star Wars Legends novel. The embattled Republic reels from the attacks of Grand Admiral Thrawn, who has marshaled the remnants of the Imperial forces and driven the Rebels back with an abominable technology recovered from the Emperor's secret fortress: clone soldiers. As Thrawn mounts his final siege, Han Solo and Chewbacca struggle to form a coalition of smugglers for a last-ditch attack, while Princess Leia holds the Alliance together and prepares for the birth of her Jedi twins. The Republic has one last hope—sending a small force into the very stronghold that houses Thrawn's terrible cloning machines. There a final danger

awaits, as the Dark Jedi C'baoth directs the battle against the Rebels and builds his strength to finish what he already started: the destruction of Luke Skywalker.

From Timothy Zahn, Hugo Award winner and New York Times bestselling author of two landmark Star Wars® series, comes an original new tale featuring a renegade space pilot, his unusual alien partner, and an unknown cargo that can change the course of galactic history. Jordan McKell has a problem with authority. Unfortunately for him, the iron-fisted authority of the powerful Patthaaunutth controls virtually every aspect of galactic shipping. In order to survive, Jordan ekes out a living dabbling in interstellar smuggling for outlaw concerns that represent the last vestiges of free trade in the galaxy. So when Jordan and his partner, Ixil--an alien with two ferret-like "outhunters" linked to his neural system--are hired by a mysterious gentleman to fly a ship and its special cargo to Earth, they jump at the job. Caution has never been one of Jordan's strong suits. But this time he may have taken on more than even he can handle. The ship, Icarus, turns out to be a ramshackle hulk, the ragtag crew literally picked up off the street, and the cargo so secret, it's sealed in a special container that takes up most of the cramped and ill-designed ship. As if that weren't bad enough, it looks like the authorities already suspect something is afoot, there's a saboteur aboard, and the Icarus appears to be shaking apart at the seams. It doesn't seem as if things could get any worse. That is, until a beautiful crew member helps McKell uncover the true nature of the cargo he's carrying. With his enemies closing in on the lumbering Icarus, the

unknown saboteur still aboard, and authorities on Earth pressured to turn them in, McKell and Ixil become fugitives. Their only chance is to stay one step ahead of their pursuers as they try to make it home. A bold and epic novel filled with unrelenting action and a good dose of humor, *The Icarus Hunt* is a wild hyperspace romp through the galaxy.
