2004 National Book Awards nonfiction honor. It is a literally chilling read, especially in its minute-by-minute description of the events of the morning of 9/11 inside the Twin Towers. It is The 9/11 Commission Report, which was, before its publication, perhaps one of the most anticipated government reports of all time, and has been since an unlikely bestseller. The official statement by the National Commission on Terrorist Attacks Upon the United States-which was instituted in late 2002 and chaired by former New Jersey Governor Thomas Kean-it details what went wrong on that day (such as intelligence failures), what went right (the heroic response of emergency services and self-organizing civilians), and how to avert similar future attacks. Highlighting evidence from the day, from airport surveillance footage of the terrorists to

eat healthy! The six Gluten-Free Ghouls characters Gloppy, Bogey, Teaky, Oafie, Pops, and Bonkers live in a giant treehouse and love to play baseball and golf - and they even skateboard! But their favorite thing to do is eat! Join them as they scramble through town gobbling up leftover pizza, spaghetti, and their favorite pies. The only trouble is that their not-so-healthy eating habits begin to create some frustrating and itchy symptoms. Their doctor tells them to eat a gluten-free diet. Gluten-Free Ghouls is a great rhyming book that is sure to bring about some giggles as children enjoy the silly characters while the story builds awareness of the importance of eating well. Food sensitivities like gluten or allergies such as peanuts, dairy, etc. are so prevalent these days and children need to be aware of what can happen even if they

Liquefied natural gas (LNG) is a commercially attractive phase of the commodity that facilitates the efficient handling and transportation of natural gas around the world. The LNG industry, using technologies proven over decades of development, continues to expand its markets, diversify its supply chains and increase its share of the global natural gas trade. The Handbook of Liquefied Natural Gas is a timely book as the industry is currently developing new large sources of supply and the technologies have evolved in recent years to enable offshore infrastructure to develop and handle resources in more remote and harsher environments.
