EPR is a high-tech electronic patient record system which will modernise and improve the way we deliver patient care across the Trust. Introducing an EPR system will mean all patient information will be available electronically, on screen, at any hospital location, at any time. It will transform the way we admit, treat and discharge our patients. It will improve referral management, reducing the number of cancellations and rescheduled appointments.

Toyota Service Information
This involves using information systems and information technology to maximise information resources to meet organisational and individual requirements. For a business, knowledge is power. That is, the more an organisation knows about its product, service, partners and customer, the more it can strategically enhance and fine tune their operations to suit productivity and client satisfaction.
