## Extraterrestrial Civilizations

Extraterrestrial

Civilizations is a 1979 book by Isaac Asimov, in which the author estimates the probability of there being intelligent extraterrestrial civilizations within the Milky Way galaxy. This estimation is approached by progressively analyzing the requirements for life to exist. Overview

Anyone interested in SETI should read Isaac Asimov's Extraterrestrial Civilisations and get an idea of how ingenious people like Asimov can be. At some point in the book, you wonder why we haven't been contacted by an alien civilisation. Of course, Asimov then gives some pretty good reasons why this hasn't happened.

## Extraterrestrial Civilizations

### Isaac Asimov

First published in 1979, by Isaac Asimov, this Non-Fiction Novel is about the search for alien life. It attempts to create a formula similar to the Drake Equation to resolve the Fermi Paradox . At first, Dr Asimov establishes what sort of intelligence this book will be discussing, as well as why we cannot find it on Earth (aside from humans).
