### Fair Housing And Supportive Housing March 13 14 2017

Permanent Supportive Housing Permanent Supportive Housing (PSH) is long-term, community-based housing, which includes supportive services for homeless people with disabilities. This type of supportive housing is meant to enable the special needs population to live as independently as possible in a permanent setting.

### Permanent Supportive Housing - Ohio

Fair Housing Housing discrimination isn ' t just unfair – it ' s against the law. If you feel that you ' ve been denied the sale, rental or financing of a home because of race, color, national origin, religion, sex, familial status or disability, report to HUD or your local fair housing center.

### Fair Housing - Supportive Housing Coalition of New Mexico

Supportive housing, as defined in Section 65650, shall be a use by right in all zones where multifamily and mixed uses are permitted, as provided in Article 11 (commencing with Section 65650).

Chronic homelessness is a highly complex social problem of national importance. The problem has elicited a variety of societal and public policy responses over the years, concomitant with fluctuations in the economy and changes in the demographics of and attitudes toward poor and disenfranchised citizens. In recent decades, federal agencies, nonprofit organizations, and the philanthropic community have worked hard to develop and implement programs to solve the challenges of homelessness, and progress has been made. However, much more remains to be done. Importantly, the results of various efforts, and especially the efforts to reduce homelessness among veterans in recent years, have shown that the problem of homelessness can be successfully addressed. Although a number of programs have been developed to meet the needs of persons experiencing homelessness, this report focuses on one particular type of intervention: permanent supportive housing (PSH). Permanent Supportive Housing focuses on the impact of PSH on health care outcomes and its cost-effectiveness. The report also addresses policy and program barriers that affect the ability to bring the PSH and other housing models to scale to address housing and health care needs.

Title VIII of the Civil Rights Act of 1968, known as the Fair Housing Act, prohibited discrimination in the sale, rent, and financing of housing based on race, religion, and national origin. However, manifold historical and contemporary forces, driven by both governmental and private actors, have segregated these protected classes by denying them access to homeownership or housing options in high-performing neighborhoods. Perspectives on Fair Housing argues that meaningful government intervention continues to be required in order to achieve a housing market in which a person's background does not arbitrarily restrict access. The essays in this volume address how residential segregation did not emerge naturally from minority preference but rather how it was forced through legal, economic, social, and even violent measures. Contributors examine racial land use and zoning practices in the early 1900s in cities like Atlanta, Richmond, and Baltimore; the exclusionary effects of single-family zoning and its entanglement with racially motivated barriers to obtaining credit; and the continuing impact of mid-century "redlining" policies and practices on public and private investment levels in neighborhoods across American cities today. Perspectives on Fair Housing demonstrates that discrimination in the housing market results in unequal minority households that, in aggregate, diminish economic prosperity across the country. Amended several times to expand the protected classes to include gender, families with children, and people with disabilities, the FHA's power relies entirely on its consistent enforcement and on programs that further its goals. Perspectives on Fair Housing provides historical, sociological, economic, and legal perspectives on the critical and continuing problem of housing discrimination and offers a review of the tools that, if appropriately supported, can promote racial and economic equity in America. Contributors: Francesca Russello Ammon, Raphael Bostic, Devin Michelle Bunten, Camille Zubrinsky Charles, Nestor M. Davidson, Amy Hillier, Marc H. Morial, Eduardo M. Peñalver, Wendell E. Pritchett, Rand Quinn, Vincent J. Reina, Akira Drake Rodriguez, Justin P. Steil, Susan M. Wachter.
