From Fright to Might is a textbook/workbook for public speaking courses that provides students a simple, concise, yet comprehensive opportunity to understand the art of public speaking through hands-on experience. With the added contributions of their instructor, students will gain self-confidence, poise, research skills, outlining ability, and delivery competence. Throughout the text, the themes of confidence and anxiety-reduction are emphasized. At the same time, students also learn the fundamentals of public speaking. From Fright to Might proves that, in public speaking, there is little to fear, and much to gain.

Written by best-selling author, screenwriter, and producer Seth Grahame-Smith (Stephen King's It), with an introduction by horror icon Wes Craven (A Nightmare on Elm Street), this is a hilarious must-read for any horror movie fan...and it just might save your life. Are you reading this in a cornfield, at a summer camp, or in an abandoned mental institution? Have you noticed that everything is poorly lit, or that music surges every time you open a door? If the answer is yes, you're probably trapped in a horror movie. But don't freak out—just read this book! With it you will learn how to overcome every obstacle found in scary films, including: • How to determine what type of horror film you're trapped in • The five types of slashers and how to defeat them • How to handle killer dolls, murderous automobiles, and other haunted objects • How to deal with alien invasions, zombie apocalypses, and other global threats • What to do if you did something last summer, if your corn has children in it, or if you suspect you're already dead

Max is used to being called Stupid. And he is used to everyone being scared of him. On account of his size and looking like his dad. Kevin is used to being called Dwarf. On account of his size and being some cripple kid. But greatness comes in all sizes, and together Max and Kevin become Freak The Mighty and walk high above the world. An inspiring, heartbreaking, multi-award winning international bestseller.

They thought the fears were gone. They thought the nightmares would stop haunting them. But the five of them were wrong. They're older now. They're friends. But that friendship can be shattered so easily when life turns scary again. It was bad enough when it was just clowns and sharks and snakes. Back then, they had to conquer their own fear. Now . . . they have to conquer everyone else's.

The three-volume set LNCS 8009-8011 constitutes the refereed proceedings of the 7th International Conference on Universal Access in Human-Computer Interaction, UAHCI 2013, held as part of the 15th International Conference on Human-Computer Interaction, HCII 2013, held in Las Vegas, USA in July 2013, jointly with 12 other thematically similar conferences. The total of 1666 papers and 303 posters presented at the HCII 2013 conferences was carefully reviewed and selected from 5210 submissions. These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems. The papers accepted for presentation thoroughly cover the entire field of human-computer interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas. The total of 230 contributions included in the UAHCI proceedings were carefully reviewed and selected for inclusion in this three-volume set. The 78 papers included in this volume are organized in the following topical sections: age-related issues, human vision in universal access, emotions and persuasion in universal access, design for autistic spectrum disorders, cognitive issues for universal access, universal access to the Web and social communities.

This is the story of an ordeal sustained by the flesh and blood of United Nations soldiers, American Soldiers, Republic of Korea soldiers, and the innocent and defenseless refugees. Superior photos, maps, casualty list, military symbols, weapons glossary, and the roster of the 7th US Cavalry Association.
