Few people come into logistics management with knowledge and experience of all aspects of the profession. Some may have worked their way up from driving a vehicle but know little of warehouses, others may find themselves taking responsibility for logistics as part of a wider remit such as operations. A Practical Guide to Logistics aims to equip them with the necessary knowledge to move on to the next stage, with simple non-technical explanations of the options available, and impartial advice on how to choose the right option for their business. It is also an excellent primer for students studying logistics for the first time, on BSc or MSc courses, as well as practitioners on professional training courses. A Practical Guide to Logistics is a straightforward guide taking readers through all aspects of this fascinating industry, covering packaging, transportation, warehousing and exporting and importing of goods. There is a real need for this basic knowledge, both for practitioners starting out in the industry or more experienced practitioners who may have gaps in their knowledge. The book examines each aspect of logistics in turn and the text is supported by numerous illustrations.

I had the honour to represent Yorkshire & North Lincolnshire for ten years in the European 'Parliament'. I came into direct contact with Mainstream Media, very senior civil servants and dozens of journeymen politicians elected solely on the basis of the colour of their rosette at election time. My constituents have a reputation for blunt speaking and honesty. Probably why they elected me! Whenever I visit pubs or clubs I am asked the same question 'How can 'they' be so bad?'. Also, the inspiration for this book: the question from an ordinary working man in Leeds, 'Why can't they leave us alone?' A Libertarian even if he didn't know it. I supply some of the answers here, enjoy!

It is a pleasure to present the proceedings of the 11th International Symposium on Automotive Lighting, which took place in Darmstadt on September 28–30, 2015. This conference is the document of a series of successful cobnferences since the first PAL-coference in 1995 and shows the latest innovative potentials of the automotive industry in the application of lighting technologies.

Remodelista: The A-Z Guide to Remodeling Your Home is a quick and useful guide to remodeling basics, excerpted from Remodelista. Remodelista.com is the go-to, undisputed authority for home design enthusiasts, remodelers, architects, and designers. Unlike sites that cater to all tastes, Remodelista has a singular and clearly defined aesthetic: classic pieces trump designs that are trendy and transient, and well-edited spaces take precedence over cluttered environments. High and low mix seamlessly here, and getting the look need not be expensive (think Design Within Reach meets Ikea). Remodelista decodes the secrets to achieving this aesthetic, with in-depth tours and lessons from 12 enviable homes; a recipe-like breakdown of the hardest-working kitchens and baths; dozens of do-it-yourself projects; "The Remodelista 100," a guide to the best everyday household objects; and an in-depth look at the ins and outs of the remodeling process. In a world of design confusion, Remodelista takes the guesswork out of the process.
