“ Stunning. ” —Newsweek With the same audacity with which John Steinbeck wrote about migrant worker conditions in *The Grapes of Wrath* and T.C. Boyle in *The Tortilla Curtain*, Viramontes presents a moving and powerful vision of the lives of the men, women, and children who endure a second-class existence and labor under dangerous conditions in California's fields. Pushed to the margins of society, she learns to fight back and is able to help the young farmworker she loves when his ambitions and very life are threatened

roles, she also considers how theatrical representations interpret, or reinterpret, closural features to recuperate and redirect their social energies. By giving special emphasis to theatrical reproduction as a form of textuality and to the intertextual relations between drama and other forms of history writing, Hodgdon situates performance as a type of new historicism and shows how theatrical productions, like critical discourse, participate in cultural work. Through a study of playtexts and selected performance texts, she negotiates between the critical and theatrical guises of Shakespeare to assess how past and present-day theatrical practice has appropriated his work to serve particular institutional and social practices.
