John Fix Astronomy Journey Cosmic Frontier

John D. Fix is a professor of physics and dean of the College of Science at the University of Alabama in Huntsville. Before joining UAH, he was a professor of astronomy at the University of Iowa, where he was a member of the faculty from 1969 to 1999. He studied physics as an undergraduate at Purdue University, and then went on to earn a Ph.D ...

Astronomy: Journey to the Cosmic Frontier: Amazon.co.uk ...

Astronomy can be defined as the study of light that reaches us from the heavens. That light carries vast stores of information, if you know how to read it. The spectra of stars give clear, unambiguous clues to their temperatures and atmospheric compositions, among other things.

Abridgement prepared for use in the course "Stars, Galaxies & the Universe, 029:50" taught at The University of Iowa.

This is a text for an introductory astronomy course. One of the main goals is to provide a broad enough and deep enough background in astronomy so the student will be able to follow current developments in astronomy years after they complete the course. This book presumes that most of its readers are not science majors and that they probably

Read Book John Fix Astronomy Journey Cosmic Frontier

have not had a college-level science or mathematics course. The book provides a complete description of current astronomical knowledge, neither at an extreme technical level nor at a level that fails to communicate the quantitative nature of physical science. Finally, the historical development of astronomy is emphasized to show that astronomy, like other sciences, advances through the efforts of many scientists, and to show how present ideas have been developed.

This is a text for an introductory astronomy course. One of the main goals is to give a broad and deep enough background in astronomy so that students will be able to follow current developments in the subject years after they complete the course. This book presumes that most of its readers are not science majors and that they probably have not had a college-level science or mathematics course. It gives a complete description of current astronomical knowledge, although not at an extreme technical level nor in a way that fails to communicate the quantitative nature of physical science. Finally, the historical development of astronomy is emphasized to show that astronomy, like other sciences, advances through the efforts of many scientists, and to show how present ideas have been developed. - The book includes up-to-date results for the Mars Global Surveyor, with discussion of distant supernovas and the cosmological constant. - The free CD-ROM

Read Book John Fix Astronomy Journey Cosmic Frontier

takes students further into the information they need to know: quizzing and animations lead the way to understanding. - New formulas and equations are presented as boxed features, so that the maths and physics involved are not ignored but made
