Making Sense of Construction Improvement argues that the popularity of improvement recipes such as partnering, collaborative working and integrated teams can be understood as strategies for overcoming the loss of control associated with downsizing and outsourcing.

Making Sense of Construction Improvement: A Critical

Making Sense of Construction Improvement argues that construction sector improvement techniques cannot be understood in terms of their substantive content, and are best understood in terms of the rhetoric within which they are presented. The author also contends that the persuasiveness of such recipes depends upon the extent to which practitioners can adopt them for the purposes of making sense of the changes they observe happening around them.
