Good nutrition. Food and nutrition act as fuels for our body. Every day our body demands a different kind of nutrition so that no nutrient is in abundance in our body. A healthy diet includes a lot of natural foods. A sizeable portion of the diet should contain all the cardinal fruits and vegetables especially those which are red or dark green.

Make the Grade in AS Biology with Human Biology has been specially written to give students comprehensive exam support for senior secondary level Biology and Human Biology. It is a comprehensive revision guide for students that includes a bank of activities and questions for use throughout the course, with exam questions, including synoptic questions, to help students fully prepare for examinations.

Written by experienced teacher Andy Clarke, this Student Guide for Biology: - Identifies the key content you need to know with a concise summary of topics examined in the AS and A-level specifications - Enables you to measure your understanding with exam tips and knowledge check questions, with answers at the end of the guide - Helps you to improve your exam technique with sample answers to exam-style questions - Develops your independent learning skills with content you can use for further study and research

Too much information? Too little time? Here's everything you need to succeed in your maternal-newborn nursing course and prepare for course exams and the NCLEX®. Succinct content reviews in outline format focus on must-know information, while case studies and NCLEX-style questions develop your ability to apply your knowledge in simulated clinical situations. A 100-question final exam at the end of the book. You'll also find proven techniques and tips to help you study more effectively, learn how to approach different types of questions, and improve your critical-thinking skills.

This book offers practitioners working with 11-14 year olds, a highly practical education resource for running well being lessons.
