Welcome to the world of DALI. DALI is an internationally standardized luminaire interface. The protocol can be used as a stand-alone system or as a sub-system in building automation to control lighting devices. In our seminar you learn how to plan and programme DALI installations. We speak very frankly and completely free of any manufacturer bias about the risks and benefits and explain how to implement DALI correctly and indicate what has changed as a result of the new DALI2 standard.

Review title of Mark Dial in for a great experience. Great little gadget that works on my HP desktop for quick volume changes, scrolling, zooming etc. On my surface pro it works on the screen also, which I admit I don't use as often due to the size of the screen. Using mouse, keyboard and dial I have full control. Battery life is great.
