Hubbard & O'Brien is the only book that motivates students to learn economics through real business examples. The #1 question students of economics ask themselves is: "Why am I here, and will I ever use this"? Hubbard & O'Brien answer this question by demonstrating that real businesses use economics to make real decisions daily. This is motivating to all students, whether they are business majors or not. All students can relate to businesses they encounter in their everyday lives. Whether they open an art studio, do social work, trade on Wall Street, work for the government, or bartend at the local pub, students will benefit from understanding the economic forces behind their work.

A continuing stream of information technology innovations is transforming the business world, in the Arab region and right around the globe. This text gives readers an in-depth look at how both local and international corporations harness information technology and systems to achieve corporate objectives. With a focus on providing students with engaging content that draws links between MIS theory and its application to real-life business scenarios, this text is an essential companion to any student of MIS in the Arab region.

Revised edition of the authors' Economics, [2017]

This adaptation builds on all the reasons for the international success of Robbins & Coulter's 'Management' textbook engaging students by using real-world examples to bring management theories to life, this time with a special focus on the Arab region.

The undisputed #1 market leading book continues to be an innovative look at the most current changes and happenings in the auditing profession! Topics appear as they would during the audit planning and execution stage rather than as isolated pieces of information. Fraud detection; integration of SECTION 404 of the Sarbanes-Oxley Act of 2002 and related SEC and PCAOB rulemakings; internal controls -- Internal Control and Control Risk. For individuals interested in the auditing, accounting, and consulting fields.

The Arab World edition of N. Gregory Mankiw's Principles of Economics is essential reading for economics students in Arab League countries, or those with any interest in Islamic Finance. Following on from the successful second edition, the text contains updated case studies, news articles and features, which focus on the Arab World. It also includes Mankiw's classic ten principles approach to economics - introduced in Chapter one and then referenced throughout the book, designed to help build a framework for understanding. This text is designed to give students the confidence and ability to think like an economist. The third edition is also available as a MindTap, a fully interactive learning platform with additional assessment questions, Concept Clips and case studies.
