The Pimsleur® Method teaches speaking and understanding right from the start For almost 50 years, in over 50 languages, the Pimsleur® Method has been recognized by experts worldwide as one of the fastest and most effective ways to learn to speak another language. With Pimsleur you will learn French in the same way you learned your first language as a child, acquiring the vocabulary of the new language, along with the melody, rhythm, and intonation of French as used in everyday conversation. The Science of Memory Dr. Paul Pimsleur's research on memory was one of his most significant achievements: he discovered that if reminded of new words and information at gradually increasing intervals of time, the learners would remember the words or information for increasingly longer periods. Dr. Pimsleur documented that the acquisitions would actually move from short-term into long-term, or permanent, memory. The Reading Program Pimsleur Language Programs use the same revolutionary learning Method to teach you to read, as well as to speak. You will start by sounding out French, learning to associate the new sound system to the English alphabet you know. Gradually you will learn to look at the words and see them with "French eyes." And you will learn to read French without an English accent. Learn on the Go! goFrench makes it easier than ever to use the Pimsleur programs by including the spoken lessons in two audio formats. Now you can listen anytime, anywhere: in your car or at home and on your MP3 player. This package contains: • Eight 30-minute language lessons on four audio CDs • A reading book with more than 50 Reading Lessons An iPod-ready MP3 CD that has: • MP3 audio files of the eight 30-minute spoken language lessons • An MP3 file containing three hours of reading lessons • A printable PDF file of the companion Reading Book (Please Note: MP3 disc will not play on a regular CD player) Bonus: a digital Ultralingua French-English dictionary with 200,000 items, including colloquial terms and common expressions. Bringing his perennially popular course to the page, Yale University Professor Paul H. Fry offers in this welcome book a guided tour of the main trends in twentieth-century literary theory. At the core of the book's discussion is a series of underlying questions: What is literature, how is it produced, how can it be understood, and what is its purpose? Fry engages with the major themes and strands in twentieth-century literary theory, among them the hermeneutic circle, New Criticism, structuralism, linguistics and literature, Freud and fiction, Jacques Lacan's theories, the postmodern psyche, the political unconscious, New Historicism, the classical feminist tradition, African American criticism, queer theory, and gender performativity. By incorporating philosophical and social perspectives to connect these many trends, the author offers readers a coherent overall context for a deeper and richer reading of literature.
