### 50 Best Humanity Quotes Which Will touch your Heart

The following quotes about humanity may explain and hopefully inspire us: "You must not lose faith in humanity. Humanity is an ocean; if a few drops of the ocean are dirty, the ocean does not become dirty."

Regarding humans unfavorably upon arriving on Earth, a reluctant extraterrestrial assumes the identity of a Cambridge mathematician before realizing that there's more to the human race than he suspected.

"Rutherford describes [The Book of Humans] as being about the paradox of how our evolutionary journey turned 'an otherwise average ape' into one capable of creating complex tools, art, music, science, and engineering. It's an intriguing question, one his book sets against descriptions of the infinitely amusing strategies and antics of a dizzying array of animals."—The New York Times Book Review Publisher's Note: The Book of Humans was previously published in hardcover as Humanimal. In this new evolutionary history, geneticist Adam Rutherford explores the profound paradox of the human animal. Looking for answers across the animal kingdom, he finds that many things once considered exclusively human are not: We aren't the only species that "speaks," makes tools, or has sex outside of procreation. Seeing as our genome is 98 percent identical to a chimpanzee's, our DNA doesn't set us far apart, either. How, then, did we develop the most complex culture ever observed? The Book of Humans proves that we are animals indeed—and reveals how we truly are extraordinary.

Winner of the 2012 Anisfield-Wolf Book Award for Nonfiction A revelatory look at why we dehumanize each other, with stunning examples from world history as well as today's headlines "Brute." "Cockroach." "Lice." "Vermin." "Dog." "Beast." These and other monikers are constantly in use to refer to other humans—for political, religious, ethnic, or sexist

reasons. Human beings have a tendency to regard members of their own kind as less than human. This tendency has made atrocities like the Holocaust, the genocide in Rwanda, and the slave trade possible, and yet we still find it in phenomena such as xenophobia, homophobia, military propaganda, and racism. *Less Than Human* draws on a rich mix of history, psychology, biology, anthropology and philosophy to document the pervasiveness of dehumanization, describe its forms, and explain why we so often resort to it. David Livingstone Smith posits that this behavior is rooted in human nature, but gives us hope in also stating that biological traits are malleable, showing us that change is possible. *Less Than Human* is a chilling indictment of our nature, and is as timely as it is relevant.

Modern humans have come a long way in the seventy thousand years they've walked the earth. Art, science, culture, trade—on the evolutionary food chain, we're true winners. But it hasn't always been smooth sailing, and sometimes—just occasionally—we've managed to truly f\*ck things up. Weaving together history, science, politics and pop culture, *Humans* offers a panoramic exploration of humankind in all its glory, or lack thereof. From Lucy, our first ancestor, who fell out of a tree and died, to General Zhou Shou of China, who stored gunpowder in his palace before a lantern festival, to the Austrian army attacking itself one drunken night, to the most spectacular fails of the present day, *Humans* reveals how even the most mundane mistakes can shift the course of civilization as we know it. Lively, wry and brimming with brilliant insight, this unique compendium offers a fresh take on world history and is one of the most entertaining reads of the year.

From the internationally bestselling author of *The Vegetarian*, a "rare and astonishing" (The Observer) portrait of political unrest and the universal struggle for justice. In the midst of a violent student uprising in South Korea, a young boy named Dong-ho is shockingly killed. The story of this tragic episode unfolds in a sequence of interconnected chapters as the victims and the bereaved encounter suppression, denial, and the echoing agony of the massacre. From Dong-ho's best friend who meets his own fateful end; to an editor struggling against censorship; to a prisoner and a factory worker, each suffering from traumatic memories; and to Dong-ho's own grief-stricken mother; and through their collective heartbreak and acts of hope is the tale of a brutalized people in search of a voice. An award-winning, controversial bestseller, *Human Acts* is a timeless, pointillist portrait of an historic event with reverberations still being felt today, by turns tracing the harsh reality of oppression and the resounding, extraordinary poetry of humanity. Shortlisted for the International Dublin Literary Award Amazon, 100 Best Books of 2017 The Atlantic, "The Best Books We Read in 2017" San Francisco Chronicle, "Best of 2017: 100 Recommended Books" NPR Book Concierge, 2017's Great Reads Library Journal, "Best Books of 2017" Huffington Post, "Best Fiction Books of 2017" Medium, Kong Tsung-gan's "Best Human Rights Books of 2017"

Acclaimed as a man "who inspires the world" (Maclean's) and a "nation builder" (Globe and Mail), Jean Vanier has made a difference in the lives of countless people — including those with disabilities and the many young people who have been moved by his life's work. *Becoming Human* is a modern classic that continues to resonate among the generations. In a world of competition, where the strong dominate the weak, Vanier calls on each one of us to open ourselves to those we perceive as different or inferior. This, he says, is the key to true personal and societal freedom. This 10th anniversary edition includes a new introduction by the author.

Struggling with overwork and parenting angst, English village doctor Peter Radley endeavors to hide his family's vampire nature until their daughter's oddly satisfying act of violence reveals the truth, an event that is complicated by the arrival of a practicing vampire family member.

A multidisciplinary study draws on elements of anthropology, psychology, and evolutionary theory to analyze the relationship between human nature and the history of warfare, offering a disturbing look at humankind's innate penchant for war. Reprint. 20,000 first printing.

'This book is the one. Think *Sapiens* and triple it.' – Julia Hobsbawm, author of *Fully Connected* We all have ten types of human in our head. They're the people we become when we face life's most difficult decisions. We want to believe there are things we would always do – or things we never would. But how can we be sure? What are our limits? Do we have limits? *The Ten Types of Human* is a pioneering examination of human nature. It looks at the best and worst that human beings are capable of, and asks why. It explores the frontiers of the human experience, uncovering the forces that shape our thoughts and actions in extreme situations. From courtrooms to civil wars, from Columbus to child soldiers, Dexter Dias takes us on a globe-spanning journey in search of answers, touching on the lives of some truly exceptional people. Combining cutting-edge neuroscience, social psychology and human rights research, *The Ten Types of Human* is a provocative map to our hidden selves. It provides a new understanding of who we are – and who we can be. 'I emerged from this book feeling better about almost everything... a mosaic of faces building into this extraordinary portrait of our species.' – Guardian 'The Ten Types of Human is a fantastic piece of non-fiction, mixing astonishing real-life cases with the latest scientific research to provide a guide to who we really are. It's inspiring and essential.' – Charles Duhigg 'Uplifting and indispensable.' – Howard Cunnell What readers are saying about 'the most important book in years': 'utterly compelling...this one comes with a warning – only pick it up if you can risk not putting it down' – Wendy Heydorn on Amazon, 5 stars 'one of the most remarkable books I've read...
