20 Best Book Sterile Drug Products Formulation Packaging ...

2 Types of sterile product. The most obviously recognized sterile pharmaceutical preparations are injections. These vary from very small-volume antigenic products to large-volume, total parenteral nutrition products. Other sterile products include ophthalmic preparations, creams and dusting powders. This section describes their formulation and packaging and the constraints imposed by sterilization on stability, formulation and packaging of some of the more common sterile products. 2.1 Injections
