Sunday Telegraph Barn The Spoon, as he's affectionately known is a rare master craftsman in the art of spoon carving. In this book he generously shares his extraordinary skill, gentle philosophy and his life's work – designing and carving beautiful spoons that are both a joy to use and hold. Featuring sixteen unique designs in the four main categories of spoon – eating, serving, cooking and measuring spoons, Barn takes you through the nuances of their making, how each design is informed by its function at the table or in the kitchen, and the key skills you will learn – such as creating octagonal handles, manipulating grain patterns and mastering bent branches.
