Abstract. The current debate over racial inequalities in health is arguably the most important venue for advancing both scientific and public understanding of race, racism, and human biological variation. In the United States and elsewhere, there are well-defined inequalities between racially defined groups for a range of biological outcomes—cardiovascular disease, diabetes, stroke, certain cancers, low birth weight, preterm

Access Free The Embodiment Of Racism In

The Habits of Racism examines some of the complex questions raised by the phenomenon and experience of racism. Helen Ngo draws on the resources of Merleau-Ponty to show how the conceptual reworking of habit as bodily orientation helps to identify the subtle but more fundamental workings of racism--to catch its insidious, gestural expressions, as well as its habitual modes of racialized perception.

The Habits of Racism: A Phenomenology of Racism and ...
The work of important scientists like Samuel Morton gave racism legitimacy. Journalists, teachers, and preachers began to popularize their findings. Historian Reginald Horsman, who studied the leading publications of the time, notes: ...
