Rheology is a branch of physics. Rheologists describe the deformation and flow behavior of all kinds of material. The term originates from the Greek word “ rhei ” meaning “ to flow ” (Figure 1.1: Bottle from the 19th century bearing the inscription “ Tinct(ur) Rhei Vin(um) Darel ” .Exhibited in the German Apotheken-Museum [Drugstore

The flow time must not fall below a specified minimum, otherwise the flow inside the capillary will no longer be laminar.. If a flow cup is used, the principle works as described above, but instead of exact capillary dimensions, the volume of the cup and its outlet capillary need to be accurately defined.
