The Second Machine Age: Work, Progress, and Prosperity in a Time of Brilliant Technologies is a 2014 book by Erik Brynjolfsson and Andrew McAfee which is a continuation of their book Race Against the Machine. They argue that the Second Machine Age involves the automation of a lot of cognitive tasks that make humans and software-driven machines substitutes, rather than complements.

The Second Machine Age - Wikipedia

The Second Machine Age tries to do two things at once, and does both of them passably well, though with the authors sympathies clear (in believing in the inexorable advance of
