TRUMPF Training Courses Brochure

TruTops Calculate quickly calculates anticipated times and costs for parts and entire assemblies produced on TRUMPF punching, combination, laser or laser tube-cutting machines. Specific calculation requirements such as special conditions, machine hour rates, labor costs or profit margins are also included in the calculation.

Software | TRUMPF

The installation manual of the TruTops product contains detailed information on backing up data. TRUMPF also recommends protecting hardware against power failure by using an uninterruptible power supply (UPS).

[Book] Trumpf Laser Programming Manual

Here, you are completely independent from the file format of your customers. Mass and assembly imports can also be achieved easily. With HomeZone, you always have an overview of all the work steps of an order - from 2D/3D design and unfolding, to the bending program and nesting, right up to the cutting or punching program.

TruTops Boost | TRUMPF

Ok, I don't do any programming, I just run it and make sure it cuts as clean as possible, so I have to grind and file as little as possible. Most adjustments I make are setting value, laser power, nozzle stand off, speed and pressure. So far it's just guess and check, but I imagine there are actually reasons to make each adjustment.
