Would you like to have a customer whose budget exceeds $250 Billion a year for goods and services? You can have that customer. The United States Federal Government is the largest purchaser of goods and services in the world. Each year, the Government issues contracts totaling more than $250 Billion for pencils, furniture, computer equipment, landscape services, janitorial services, security guard services, consultant services, etc., etc., etc. With The Beginner's Guide to Government Contracting, you now have the information you need to reach your personal and business goals of financial success. At last, Jeff Corbin tells you the secrets he has been using for the last fifteen years to help companies of all sizes win Federal Government Contracts. These companies range from a local clothes laundry to Fortune 500 Companies. He walks you through the proposal writing process and gives you examples of an Executive Summary, Organizational Charts, Cost Spreadsheets and much, much more.

Ideas, strategies, and approaches for teaching middle-school science.

"A gentle, knowledgeable guide to a fate we all share" (The Washington Post): the first and only all-encompassing action plan for the end of life. "There is nothing wrong with you for dying," hospice physician B.J. Miller and journalist and caregiver Shoshana Berger write in A Beginner's Guide to the End. "Our ultimate purpose here isn't so much to help you die as it is to free up as much life as possible until you do." Theirs is a clear-eyed and big-hearted action plan for approaching the end of life, written to help readers feel more in control of an experience that so often seems anything but controllable. Their book offers everything from step-by-step instructions for how to do your paperwork and navigate the healthcare system to answers to questions you might be afraid to ask your doctor, like whether or not sex is still okay when you're sick. Get advice for how to break the news to your employer, whether to share old secrets with your family, how to face friends who might not be as empathetic as you'd hoped, and how to talk to your children about your will. (Don't worry: if anyone gets snippy, it'll likely be their spouses, not them.) There are also lessons for survivors, like how to shut down a loved one's social media accounts, clean out the house, and write a great eulogy. An honest, surprising, and detail-oriented guide to the most universal of all experiences, A Beginner's Guide to the End is "a book that every family should have, the equivalent of Dr. Spock but for this other phase of life" (New York Times bestselling author Dr. Abraham Verghese).

Absolute beginners guide to homeschooling will help you decide if homeschooling is the best choice for your children's education.

A comprehensive, step-by-step guide on how to set up, customize, and market your blog using Apache Roller.
