Available again after a long absence! Always big on character and charm, Fiat 's little cars played an important international roll in providing affordable and practical private transport for millions who had previously thought their dream impossible. With particular emphasis on the now classic 600 and Nuova 500 cars, this book tells the full story of these ' baby ' Fiats. Built, and exported to, many countries outside of the marque 's native Italy, over 6.5 million Topolinos, 600s and Nuova 500s were sold, and an amazing number survive to this today. Also covered are the wonderful models built on these cars ' tiny chassis by Italy 's leading coachbuilders, and the motorsport success achieved by the Abarth versions of the little cars that everybody loves.

While many will be familiar with 1960 Ford racing programmes using the very compact pushrod Small Block V8, few know the facts behind the technology employed at Ford during this time. This book gives insight to the confident, logical approach of engineers working at Ford 's Engine & Foundry Division. Engineers who made outstanding technical decisions, leading to many major motorsport events being won using larger capacity derivatives of the 1961 221ci Small Block V8 production engine, a power unit introduced by Ford mid-1961 for use in 1962 model year intermediate Fairlanes and Mercurys.
